ABOUT US

We “Agrawal Chemicals and fertilizers” are the reckoned Manufacturer, Trader and Supplier of supreme grade Water Soluble Fertilizer, Chelated Micro Nutrient and PGR, Inorganic Salt and Micronutrient Fertilizer. Our offered chemicals are precisely processed under the visionary guidance of trained professionals using supreme grade chemical compounds with the help of modular techniques in compliance with set chemical industry norms. Moreover, these chemicals are checked for their quality on series of quality parameters before being supplied to our clients assuring their flawlessness at user's end. We offer these products to our clients in gradation of safe packaging option to provide their safer delivery at user's end. Our offered chemicals are widely demanded for their enormous features such as accurate composition, effectiveness, long shelf life, precisely processed, safe packaging and excellent lubricating agent.
